

Helping your pupils be ready for the future

as every one
deserves the
best opportunity
for professional
success

The effective delivery of employability skills provides every pupil with the best possible chance of a successful career.

The greater the adoption and implementation of skills such as resilience, communication and confidence, the more students' prospects are enhanced, regardless if they choose to attend university, start work or secure an apprenticeship.

At Be Ready we believe that all pupils deserve this opportunity and that schools across the UK should be given as much support as possible to provide these skills to their students. Limited school budgets and resources create significant barriers to internal delivery, and this is where we step in.

We have built a suite of CPD accredited courses for both teachers and pupils around core employability topics, perfectly complementing the curriculum and unlocking learner potential whilst enabling students to be ready for life beyond school at zero cost.

By giving all students access to our content, regardless of background, we make future success an achievable possibility for all. We do this whilst also helping schools meet statutory requirements for careers advice and commercial engagement.

“
 Be Ready provides fantastic content and has been an invaluable resource for me in choosing my options after school.
 Year 13 Student,
 Cranbrook School
 ”

“
 A fantastic free resource with advice from learning companies and modules on the skills pupils need for the future - all schools should have it!
 Elizabeth Cumpstey,
 Deputy Head of Sixth Form,
 Hampshire Collegiate School
 ”

Fully-funded

Our programmes would typically require a huge investment but we are aware how tight budgets are. By working in partnership with universities and employers we provide our products completely fully-funded.

Inspire next steps

Our video-rich, interactive microlearning content has been specifically designed for this generation. CVs and confidence build up with every click.

Bespoke employability websites

Your Be Ready programme, which is delivered through a bespoke website with personal login areas for both teacher and pupil, perfectly complements the curriculum to realise learner potential.

The site features a wealth of CPD accredited training resources, insights, the latest labour market information and details of employer engagements.

You receive a tailored Be Ready programme delivered through your bespoke online learning environment, which is branded and personalised to your school or college.

“

Employability skills are so important for school leavers and we back the work that Be Ready is doing.

Product Marketing Manager,
Microsoft

”

“

Chase Terrace Technology College are absolutely delighted with the work which Be Ready have completed for us. For our 6th Form students to be able to access these training modules will be invaluable.

Julie Poppleton, Head of CEIAG,
Chase Terrace Technology College

”

Meeting Gatsby benchmarks

We house our courses within employability sites that we create for each individual school partner and provide full user access. We also include additional content so schools can meet all eight Gatsby benchmarks.

Engaging resources

Your Be Ready programme can be delivered through video-rich, interactive online microlearning, pre-prepared classroom sessions and short tutor time modules – everything you need to engage students in their learning.

Some of our employer partners include

Accredited microlearning training

We use the latest microlearning techniques to deliver essential employability skills such as communication, confidence, resilience and personal branding in short bursts through interactive video content.

Your pupils can engage in bite-sized learning modules using tablet, mobile or computer devices. This offers them control and flexibility over what they learn and when - in the classroom, at home, on the go.

All of our training is accredited by the CPD, including our lesson resources and work booklets. It is designed to perfectly complement the curriculum and to unlock the potential of every pupil.

“
Be Ready is such an inspirational idea. Our bespoke website was carefully designed with great attention to detail and is an exciting addition to our CEIAF provision.
”

Joanna Bramley, Director of Career, Coopers School

Reward with accreditation

Provide as many students as you choose with CPD accreditation for every module they complete. This helps build their confidence, their CV and their value to future employers.

Track success

It's easy to gather key analysis and insights on your programme. Our secure system lets you manage users, measure student engagement, and track completion rates and outcomes.

Classroom content

We provide a host of lesson packs, workbooks and PowerPoints to enable teachers to deliver our content with minimum prep time, in the classroom, in tutor time or as homework. They are specifically designed for pupils studying across key stages 3, 4 and 5 with differentiated learning outcomes for each group.

We also provide you with access to our free tutor time resources designed to be run in 10-15 minute slots. These resources enable pupils to understand key topics and engage in group discussions and debates, and improve their employability and their understanding of British values.

Each resource has been created to help prepare your pupils for the next step in their lives and promote the benefits of self-development and lifelong learning.

Varied learning

Classroom delivery or downloadable workbook activities; you choose how to help students retain the skills training and industry insight they've learned.

Interactive engagement

Giving pupils the chance to participate in debate, presentations and mock interviews to encourage active engagement and simulate real work scenarios.

Easy to implement

All resources are provided with full content and instruction, enabling teachers to deliver the learning outcomes with minimum preparation.
